

CAUSTICS...

...ARE A PHENOMENON OF LIGHT ENTERING THE TRANSLUCENT EYE ON ONE SIDE (THE HIGHLIGHT) AND SCATTERING BEFORE EXITING THE EYE ON THE OPPOSITE SIDE IN A PALE ARC.

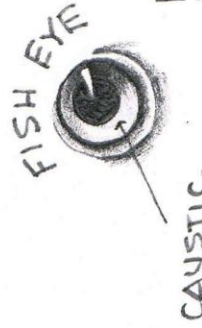

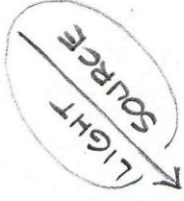

IT USUALLY OCCURS ON THE SIDE OF THE EYE FARTEST FROM THE LIGHT SOURCE.

BIRD

YOU CAN SEE IT IN BIRDS AND MAMMALS (INCLUDING HUMANS).

HIGHLIGHT IS ROD-SHAPED or WEDGE SHAPED
